## INFORMATION DISCLOSURE STATEMENT

Sir,

Pursuant to 37 C.F.R. § 1.56, Applicant brings to the attention of the Examiner the documents listed on the attached PTO Form 1449. It is believed this Information Disclosure Statement is being filed within three (3) months of the filing date of this application and before the first Office Action on the merits and thus no fee should be due (see 37 C.F.R. 1.97 (b)). If this is incorrect, please charge deposit account 03-2316.

This application is a divisional application of U.S. Serial Number 09/425,124, filed October 22, 1999. Most of the references cited on the attached PTO Form 1449 were cited in the parent application and thus copies of these are not attached. Also cited is the International Search Report for PCT/SE 99/01915 corresponding to the parent application (copy attached). As the current application was filed on February 27, 2004, a copy of newly cited U.S. 3,048,192 to Murphy is not enclosed.

This submission does not represent that a search has been made or that no better information exists and does not constitute an admission that each or all of the listed documents alone or in combination, are considered to be material to patentability as defined under 37 C.F.R. § 1.56(b).

If there are any questions, any representative of the U.S. Patent and Trademark Office is encouraged to call the undersigned attorney of record at the below-printed telephone number.

Respectfully submitted,

Date
